

### Product features

---

- Boiler Controller for individual and demand-based wireless control of the central heating
- Additional channel for controlling warm water tanks
- Easy installation to pattress box or flexible mounting on walls
- Individual adjustment of times and temperature for the central heating and hot water via PC or smartphone app
- Can be used in the MAX! House solution (via MAX! Cube) or MAX! Room solution (via MAX! Wall Thermostat+)

### Technical specifications

---

Supply voltage:	230 V/50 Hz
Current consumption:	
Channel 1:	16 A max.
Channel 2:	5 A max.
Power consumption in standby:	< 0.2 W
Degree of protection:	IP20
Dimensions (W x H x D):	98 x 130 x 23 mm
Radio frequency:	868.3 MHz
Typ. open area RF range:	> 100 m

### Logistical data

---

Product reference:	142310A0
EAN code:	4047976423101
Short description:	BC-TS-Sw2-WM
Packing unit:	48
Packing dimensions:	184 x 140 x 48 mm

### Package contents

---

1x MAX! Boiler Controller
1x Mounting accessories
1x Operating manual
